

81 Standard Colourways

Dyed in-house on 100% Mongolian cashmere. Every shade reaches cashmere, sheep wool and our blends; camel reaches the full card after a whitening step; yak runs to seven. Quote the BSC reference on your tech pack.

COLOUR CARD

Edition 2026 · 81 references · photographed on knitted cashmere

How to specify a colour

Give us the BSC reference from this card, or send a Pantone TCX/TPX reference or a physical swatch. Standard shades need no lab dip and may already be in stock; custom shades are dipped for your approval before anything goes into bulk.

WHICH FIBRES REACH WHICH SHADES

CASHMERE	All 81, plus any Pantone beyond them
SHEEP WOOL	All 81, plus custom Pantone matching
BLENDS	All 81 — spun to order, never stocked
CAMEL	Undyed naturals, or all 81 after a whitening step quoted with the colour
YAK	Seven colourways — four natural browns and three dyed darks. Yak down is naturally brown; dye can only take it darker.

MINIMUMS AND LEAD TIMES

- Garments in a shade we hold: from 10 pieces per size, per colour (accessories 20, home textiles 25).
- Woven scarves and shawls: from 135 pieces per size, per colour · 50 m of fabric if it must be produced. Knitted scarves: from 10 pieces · 100 kg of yarn.
- Woven garments: from 10 pieces in a cloth we hold · 50 m of fabric if it must be produced.
- Any other shade that must be produced: 100 kg of yarn in one fibre and colour, splittable across designs and sizes.
- Custom Pantone: lab dips are included on a production order — we iterate until the colour is approved, about 10 days per round. A standalone lab dip without an order is \$75 per shade. 100 kg minimum per colour.
- Garments: 1–2 months in a colour we hold, about a month longer if the colour has to be produced; the clock starts at sample approval. Yarn and fabric in a stocked colour ship right away, or take about a month to produce.

SAMPLES

- Single colour chip \$5 · full 81-shade fan on real cashmere \$125, about two weeks.
- Yarn swatch 100 g \$50 · fabric swatch 10 × 10 cm \$20.
- Every sample fee is credited back in full on a larger production order: above 100 kg of yarn or 50 m of fabric, or a garment order of the size we confirm with your quote.

PLEASE NOTE

Every screen and every printer renders colour differently. These images are photographs of actual dyed cashmere, but they should not be used as a definitive colour match — order a physical colour card or a lab dip for production-grade accuracy. Stock positions change; the availability of a shade is confirmed with your quotation. Certified to MNS 6926:2021 (sustainable textile production) and MNS 5820:2007 / MNS 6809:2019 (product conformity).
